

Community Investment 2016

Every year, Matan invests the resources it raises in hundreds of social programs in the community throughout Israel. These resources are invested through various activities: Initiating community projects in partnership with businesses, donors and non-profit organizations • Managing the community investments of companies, foundations and private donors • Providing grants, according to decisions made by Matan's public committees • Developing volunteer projects with companies and their employees • Providing a training program to develop CEOs of non-profit organizations. Here is a list of some of the programs we invested in this year, which illustrates the scope and diversity of our community partners.

Password for Every Student | Bridging the digital gap in the periphery
